YOUR HISTORIES
of
NORTH OAKLAND

Sights. Sounds. & People from the Recent to the Deep Past

We were six at table the other night, every one of us a long time resident of the 59 street block of Fremont Street. We want to find out how and if the denizens of our neighborhood can change the names of the streets that were named for military figures in California history (Marshall, Frémont, Vallejo, etc) famed for annihilating the indigenous population of this place. We need to get rid of these guys and their shameful histories. We were thinking that maybe Fremont St. could become Gertrude Stein Way, or something shorter...

Thanks for making history!
